Allowable Subject Matter

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach that, a second antenna member for receiving and transmitting signals in a second frequency band, said second antenna member having opposite third and fourth ends respectively disposed adjacent to and remote from said first end of said first antenna member, said fourth end of said second antenna member being connected electrically to said first end of said first antenna member so as to form a feed point at a junction of said fourth end of said second antenna member and said first end of said first antenna member; and a C-shaped second antenna element having opposite ends, one of which is connected electrically to said third end of said second antenna member of said first antenna element in combination with all limitations recited in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fukushima et al (US 6,628,241) and Zurecher et al. (US 6,642,895) are cited to show a multifrequency antenna.
